Hardware Package (included):

Installation Steps

Turn off the power at fuse or circuit box.

1. Attach the mounting strap unit (A) to the outlet box by using two mounting screws (B).
2. Thread the wires through the stem and canopy, and then connect the fixture and canopy through by the stem.
3. Pull out the source wires from the outlet box. Make wire connections using wire connectors (C) as follows:
 - Connect the hot wire (black insulation) from the fixture to the black wire from the power source.
 - Connect the neutral wire (white insulation) from the fixture to the white wire from the power source.
 - Attach the fixture grounding wire (bare wire) to the mounting strap unit (A) with the green ground screw, and then connect it to house ground wire with the wire connector (C). Carefully put the wires back into the outlet box.
4. Attach the canopy to the mounting strap unit (A) by inserting the fixture mounting screws, then secure it with two bolt nuts (D).
5. Install 3 x 60W max. medium base bulbs (not included). See relamping label at socket area or packaging for maximum wattage allowed.

Turn on the power at fuse or circuit box.

1 Year Warranty

Vaxcel warrants all of our products against defects in workmanship and finishes for one year following the date of shipment.

Exclusions: This warranty does not include the failure of products from extreme acts of nature; environmental conditions not suited for the products intended use; operation in temperatures outside of the range specified in the instruction manual; usage with improper power supply, power surges or dips. For coastal locations, some corrosion is considered normal for the environment.

Vaxcel reserves the right to repair, replace or issue a credit for any properly installed product, provided it is returned per RMA instruction. This warranty is limited to the cost of the product only and does not extend to transportation, installation or replacement costs.
